

PB1500 | Full Color Second Surface Glass Print

We have a newly refined process creating a better mirror and a lower cost! We now digitally print second surface directly on a clear piece of glass then place that over the mirrored glass preserving the artwork in the middle. The glass is then bound together by the wood frame. Full color digital printing allows a wide variety of different options.

Product Features:

- Four Color Process Digital Print
- Finished Dimensions: ¾" x 15" x 26"
- Art Dimensions: 12.5" x 23.5"
- 1¼" Frame
- Sawtooth Hanging Hardware included

Size and artwork determine cost of mirror.

We can produce multiple sizes. Pricing is relative to requested glass size and metallic option.
